EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>
Regular updates will be posted as they are available.

Comments: What a fricking nightmare that you have let this mine waste shit go into the Animas River! My god!!!!!! We are in a fricking drought and you let this happen! What about all the wildlife that is going to be poisoned because of this. **TOTALLY I R R E S P O N S I B L E**
!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! AND....waited an entire day to let New Mexico officials know about it. I am sick to death what is happening to our country.
